SUMMARY

Front-end engineer building production web applications with React, Vue, Next.js, and Nuxt. After eight years in design and marketing at NETSOL Technologies, I transitioned into the engineering team in 2024 and am now extending into AI application development — LLM-powered apps, RAG, and agent workflows. I integrate REST APIs, implement JWT/OAuth authentication, and ship via GitHub Actions CI/CD. BSc in Computer Science (2026), earned while working full-time. Hard of hearing; hired through NETSOL's disability-inclusion program.

PROFESSIONAL EXPERIENCE

Software Engineer / Front-End Developer

Jun 2024 – Present

NETSOL Technologies — Lahore, Pakistan

- Built fast, responsive web apps with React, Vue, and Nuxt, focused on scalability and clean architecture.
- Created dynamic Vue.js features and high-converting landing pages, increasing engagement ~20% and conversions ~15%.
- Integrated RESTful APIs and secured applications with JWT + OAuth authentication.
- Set up GitHub Actions CI/CD and deployed to Vercel, cutting deployment time ~20% and removing manual steps.
- Collaborated on Agile teams via JIRA, reducing sprint bottlenecks ~30%.

Design & Marketing

2015 – 2024

NETSOL Technologies — Lahore, Pakistan

- Joined NETSOL in 2015 through a disability-inclusion hiring program, building a decade-long career while studying in parallel.
- Designed brand logos and web elements (Adobe Illustrator) and built HTML email templates, lifting open rates and engagement.
- Ran targeted Mailchimp campaigns — then taught myself web development and transitioned into the engineering team.

TECHNICAL SKILLS

Frontend: React, Next.js, Vue, Nuxt, TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5, CSS3, Bootstrap

Backend: Node.js, Python (FastAPI, Flask)

AI (apps): LLM API integration, RAG, agent workflows, LangChain

APIs & Auth: REST APIs, GraphQL, JWT, OAuth · **Databases:** PostgreSQL, MongoDB

Tooling & Practices: GitHub Actions (CI/CD), Git, Vercel, JIRA, Figma, Agile/Scrum

SELECTED PROJECTS

AuraAi — AI Wellness Companion

2026

Streaming AI wellness chat (Google Gemini) on Next.js 16 — adaptive responses, auth, history, Stripe subscriptions. [ai-mental-health-chat-app.vercel.app](#)

Live Gold & Silver Prices

2026

Production site — live rates across six markets, Arabic RTL, server-side revalidation (Next.js 16, Sanity CMS). [thegoldprice.gold](#)

Eden Avenue Management

2025

Full-stack property-management dashboard — role-based access, maintenance workflows, PWA (Next.js, Prisma, PostgreSQL). [edenavenuemangement.vercel.app](#)

AI Chatbot Platform

2025

Multi-agent, tool-aware chatbot platform (FastAPI) with multi-tenant isolation and a RAG document system. [github.com/sheharzad-developer/Chatbot_Internship](#)

EDUCATION

BSc in Computer Science

2021 – 2026

Virtual University of Pakistan

Full-time, alongside full-time work at NETSOL. Final-year project: a full-stack English language-learning platform.

Associate Degree in Computer Science

2018 – 2021

Virtual University of Pakistan

Part-time. Foundations: DSA, OOP, Java, C++.

Full-Stack Bootcamp (MERN)

2023

Code Ninja Inc

4-person team project; owned the Stripe payment integration.
